

Hello,

Just wanted to let you know that I am in the neighborhood and live adjacent to Rivergrove School. We use the boat ramp for kayaking and we like to visit the river on our walks. Sometimes....occasionally there are people fishing at the bottom of the ramp. That has never seemed to be a problem and I would not like to see that opportunity shut down for others. I've seen some people swimming from the ramp and that seems fine too as others are swimming from their docks or tree ropes. I wish there were more property there that could expand that the boat dock and put in a portapottie and trash can. But I don't see that as possible. There is the part right there with a trash can, maybe they could put in a potty there.

I understand if neighbors are being affected by party-ing there, that's the Pitts. I hope they can call the police and get some results if there are problems there. Would be wonderful if there were a way to get across to Browns Ferry with a foot bridge.

I hope this is helpful.

Thank you!

Leslie and Ben Martinsen
